

TIMKEN

**Motor and electrical equipment
sales, service and repair.**

HN & **ELECTRIC**™

Motor and electrical equipment, service and repair.

MOTOR AND PUMP REPAIR

We excel in critical equipment repairs and rewinds to keep your operations up and running. We know that proper equipment operation is vital to your business. We invite our customers to watch the repair and rewind process. Think of us as an extension of your business.

MOTOR SALES

We have an extensive inventory of new, used and reconditioned motors, including fractional horsepower, Nema T-frame, close-coupled pump and metric frame motors. We carry:

- TECO/Westinghouse
- A.O. Smith
- Nidec US Motors
- Lafert - Metric Frame
- Baldor
- WEG
- Emerson Power Transmission
- GE
- LEESON
- Marathon

MECHANICAL SERVICE

We provide the same great service both onsite and in-shop. Our field services list includes mechanical and predictive services and turnkey solutions using the latest technology for everything from **dynamic balancing** and **thermal imaging** to **vibration analysis**, **emergency welding** and **custom fabrication**.

Need Emergency Service?

We understand the immediacy and severity of your motor and electrical issues and we're committed to helping provide the right solutions to keep equipment running smoothly with **24/7 service availability.**

Have an old or unique motor?

Have it repaired by someone you can trust. Our technicians have experience working on large, vintage synchronous and DC motors, including experience in DC armature and rewinding pole pieces.

Did you know?

Inspections are required by OSHA on all overhead bridge cranes and hoists. Our Crane and Hoist department is focused on helping your business prevent downtime, save money, increase safety and maintain OSHA compliance.

ELECTRICAL SERVICE

Downtime and equipment inefficiencies can be costly. Our highly trained electrical technicians help your business save money and become more efficient with:

- Custom Controls and Panels
- Generators
- Variable Frequency Drives

CRANE AND HOIST

Our Crane and Hoist Service department provides onsite service and diagnostics and an extensive predictive maintenance program to ensure your material handling equipment is functioning at its best.

We are also a distributor for crane parts and accessories. Contact us for:

- Installation
- Preventative Maintenance
- Annual OSHA Inspections
- Repair and Upgrades on all Brands

WIND TURBINE GENERATOR REPAIR

Our full-service repair center performs work on major components of wind turbine generators. Our capabilities include repair and rewind of stators, rotors, generator shafting, power slip rings, bearing housings and more.

WHO WE ARE

H&N Electric, now part of The Timken Company, provides electrical and mechanical solutions to aerospace, manufacturing, municipalities, mining, agriculture, power generation, oil and gas and other heavy industrial customers through our three service divisions: Crane, Electric and Wind.

WHAT WE DO

H&N Electric is a regional leader in electrical design and installation, electric motor and generator repair, outside field service and predictive maintenance. In addition, we are an electric motors sales center. Our experienced and qualified technicians are available 24/7 for both onsite and in-shop electrical and mechanical services.

TIMKEN

The Timken team applies their know-how to improve the reliability and performance of machinery in diverse markets worldwide. The company designs, makes and markets high-performance steel as well as mechanical components, including bearings, gears, chain and related mechanical power transmission products and services.
